

ENVIRONMENTAL ADDENDUM
APPARENT* HAZARDOUS SUBSTANCES AND/OR DETRIMENTAL ENVIRONMENTAL CONDITIONS

Borrower/Client _____
Address _____
City _____ County _____ State _____ Zip code _____
Lender _____

***Apparent is defined as that which is visible, obvious, evident or manifest to the appraiser.**

This universal Environmental Addendum is for use with any real estate appraisal. Only the statements which have been checked by the appraiser apply to the property being appraised.

This addendum reports the results of the appraiser's routine inspection of and inquiries about the subject property and its surrounding area. It also states what assumptions were made about the existence (or nonexistence) of any hazardous substances and/or detrimental environmental conditions. **The appraiser is not an expert environmental inspector** and therefore might be unaware of existing hazardous substances and/or detrimental environmental conditions which may have a negative effect on the safety and value of the property. It is possible that tests and inspections made by a qualified environmental inspector would reveal the existence of hazardous materials and/or detrimental environmental conditions on or around the property that would negatively affect its safety and value.

DRINKING WATER

_____ Drinking Water is supplied to the subject from a municipal water supply which is considered safe. However the only way to be absolutely certain that the water meets published standards is to have it tested at all discharge points.

_____ Drinking Water is supplied by a well or other non-municipal source. It is recommended that tests be made to be certain that the property is supplied with adequate pure water.

_____ Lead can get into drinking water from its source, the pipes, at all discharge points, plumbing fixtures and/or appliances. The only way to be certain that water does not contain an unacceptable lead level is to have it tested at all discharge points.

_____ **The value estimated in this appraisal is based on the assumption that there is an adequate supply of safe, lead-free Drinking Water.**

Comments _____

SANITARY WASTE DISPOSAL

_____ Sanitary Waste is removed from the property by a municipal sewer system.

_____ Sanitary Waste is disposed of by a septic system or other sanitary on site waste disposal system. The only way to determine that the disposal system is adequate and in good working condition is to have it inspected by a qualified inspector.

_____ **The value estimated in this appraisal is based on the assumption that the Sanitary Waste is disposed of by a municipal sewer or an adequate properly permitted alternate treatment system in good condition.**

Comments _____

SOIL CONTAMINANTS

_____ There are no apparent signs of Soil Contaminants on or near the subject property (except as reported in Comments below). It is possible that research, inspection and testing by a qualified environmental inspector would reveal existing and/or potential hazardous substances and/or detrimental environmental conditions on or around the property that would negatively affect its safety and value.

_____ **The value estimated in this appraisal is based on the assumption that the subject property is free of Soil Contaminants.**

Comments _____

ASBESTOS

_____ All or part of the improvements were constructed before 1979 when Asbestos was a common building material. The only way to be certain that the property is free of friable and non-friable Asbestos is to have it inspected and tested by a qualified asbestos inspector.

_____ The improvements were constructed after 1979. No apparent friable Asbestos was observed (except as reported in Comments below).

_____ **The value estimated in this appraisal is based on the assumption that there is no uncontained friable Asbestos or other hazardous Asbestos material on the property.**

Comments _____

PCBs (POLYCHLORINATED BIPHENYLS)

_____ There were no apparent leaking fluorescent light ballasts, capacitors or transformers anywhere on or nearby the property (except as reported in Comments below).

_____ There was no apparent visible or documented evidence known to the appraiser of soil or groundwater contamination from PCBs anywhere on the property (except as reported in Comments below).

_____ **The value estimated in this appraisal is based on the assumption that there are no uncontained PCBs on or nearby the property.**

Comments _____

RADON

_____ The appraiser is not aware of any Radon tests made on the subject property within the past 12 months (except as reported in Comments below).

_____ The appraiser is not aware of any indication that the local water supplies have been found to have elevated levels of Radon or Radium.

_____ The appraiser is not aware of any nearby properties (except as reported in Comments below) that were or currently are used for uranium, thorium or radium extraction or phosphate processing.

_____ **The value estimated in this appraisal is based on the assumption that the Radon level is at or below EPA recommended levels.**

Comments _____

USTs (UNDERGROUND STORAGE TANKS)

- _____ There is no apparent visible or documented evidence known to the appraiser of any USTs on the property nor any known historical use of the property that would likely have had USTs.
- _____ There are no apparent petroleum storage and/or delivery facilities (including gasoline stations or chemical manufacturing plants) located on adjacent properties (except as reported in Comments below).
- _____ There are apparent signs of USTs existing now or in the past on the subject property. It is recommended that an inspection by a qualified UST inspector be obtained to determine the location of any USTs together with their condition and proper registration if they are active; and if they are inactive, to determine whether they were deactivated in accordance with sound industry practices.
- _____ **The value estimated in this appraisal is based on the assumption that any functioning USTs are not leaking and are properly registered and that any abandoned USTs are free from contamination and were properly drained, filled and sealed.**

Comments _____

NEARBY HAZARDOUS WASTE SITES

- _____ There are no apparent Hazardous Waste Sites on the subject property or nearby the subject property (except as reported in Comments below). Hazardous Waste Site search by a trained environmental engineer may determine that there is one or more Hazardous Waste Sites on or in the area of the subject property.
- _____ **The value estimated in this appraisal is based on the assumption that there are no Hazardous Waste Sites on or nearby the subject property that negatively affect the value or safety of the property.**

Comments _____

UREA FORMALDEHYDE (UFFI) INSULATION

- _____ All or part of the improvements were constructed before 1982 when UREA foam insulation was a common building material. The only way to be certain that the property is free of UREA formaldehyde is to have it inspected by a qualified UREA formaldehyde inspector.
- _____ The improvements were constructed after 1982. No apparent UREA formaldehyde materials were observed (except as reported in Comments below).
- _____ **The value estimated in this appraisal is based on the assumption that there is no significant UFFI insulation or other UREA formaldehyde material on the property.**

Comments _____

LEAD PAINT

- _____ All or part of the improvements were constructed before 1980 when Lead Paint was a common building material. There is no apparent visible or known documented evidence of peeling or flaking Lead Paint on the floors, walls or ceilings (except as reported in Comments below). The only way to be certain that the property is free of surface or subsurface Lead Paint is to have it inspected by a qualified inspector.
- _____ The improvements were constructed after 1980. No apparent Lead Paint was observed (except as reported in Comments below).
- _____ **The value estimated in this appraisal is based on the assumption that there is no flaking or peeling Lead Paint on the property.**

Comments _____

AIR POLLUTION

- _____ There are no apparent signs of Air Pollution at the time of the inspection nor were any reported (except as reported in Comments below). The only way to be certain that the air is free of pollution is to have it tested.
- _____ **The value estimated in this appraisal is based on the assumption that the property is free of Air Pollution.**

Comments _____

WETLANDS/FLOOD PLAINS

- _____ The site does not contain any apparent Wetlands/Flood Plains (except as reported in Comments below). The only way to be certain that the site is free of Wetlands/Flood Plains is to have it inspected by a qualified environmental professional.
- _____ **The value estimated in this appraisal is based on the assumption that there are no Wetlands/Flood Plains on the property (except as reported in Comments below).**

Comments _____

MISCELLANEOUS ENVIRONMENTAL HAZARDS

- _____ There are no other apparent miscellaneous hazardous substances and/or detrimental environmental conditions on or in the area of the site except as indicated below:
 - _____ Excess Noise _____
 - _____ Radiation + Electromagnetic Radiation _____
 - _____ Light Pollution _____
 - _____ Waste Heat _____
 - _____ Acid Mine Drainage _____
 - _____ Agricultural Pollution _____
 - _____ Geological Hazards _____
 - _____ Nearby Hazardous Property _____
 - _____ Infectious Medical Wastes _____
 - _____ Pesticides _____
 - _____ Others (Chemical Storage + Storage Drums, Pipelines, etc.) _____

_____ **The value estimated in this appraisal is based on the assumption that there are no Miscellaneous environmental Hazards (except those reported above) that would negatively affect the value of the property.**

When any of the environmental assumptions made in this addendum are not correct, the estimated value in this appraisal may not be valid.
